Clinical Comply: Specifications and Data Dictionary

Table of Contents

Clinical Comply: Facility

The Excel tab Labeled **Facility** will have the following variables and definitions of the fields being pulled the field name represents the column header going from left to right with the corresponding definition of that field.

Field Name	Field Definition
EDI_org_name	Name of EDI Submitting Organization
org_asctn_name_1	Primary owner as reported in EQRS
EDI_Facility_ID	EDI submitter's Facility Identification Number
org_id	EQRS facility identification number
org_name	EQRS facility name
ccn_num	CMS' Certification Number
PrevRate	Percentage of all Prevalent Patients with any clinical or N/A submissions
HdRate	Percentage of Hemodialysis patients having Hemodialysis clinical data or N/A submission
VaRate	Percentage of Hemodialysis patients having Vascular Access data or N/A submission
PdRate	Percentage of patients having Peritoneal Dialysis clinical data or N/A submissions
Prevalent	Total number of patients expected to have clinical data
anyClin	Total number of patients that have any clinical data submitted
hdPat	Total number of patients expected to have Hemodialysis clinical data
hdClin_submitted	Total number of Hemodialysis patients with submitted Hemodialysis clinical data
hdClin_sub_na	Total number of Hemodialysis patients having "Not Applicable" clinical data
hdClin_saved	Total number of patients with saved Hemodialysis clinical data
vaClin_submitted	Total number of Hemodialysis patients with submitted Vascular Access clinical data
vaClin_sub_na	Total number of Hemodialysis patients having "Not Applicable" clinical data
vaClin_saved	Total number of patients with saved Vascular Access data
pdPat	Total number of Hemodialysis patients expected to have Peritoneal Dialysis clinical data
pdClin_submitted	Total number of patients with submitted Peritoneal Dialysis clinical data
pdClin_sub_na	Total number of Peritoneal patients having "Not Applicable" clinical data
pdClin_saved	Total number of patients with saved Peritoneal Dialysis clinical data
network	Corresponding Network Number for Listing
Clinical_time_period_start	First day of month for clinical period
Clinical_time_period_active	Indicator for open/closed status of clinical period

Clinical Comply: Patient

The Excel tab Labeled **Patinet** will have the following variables and definitions of the fields being pulled the field name represents the column header going from left to right with the corresponding definition of that field.

Field Name	Field Definition
EDI_org_name	Name of EDI Submitting Organization
org_asctn_name_1	Primary owner as reported in EQRS
EDI_Facility_ID	EDI submitter's Facility Identification Number
EDI_ptnt_ID	EDI patient identification number
ptnt_id	EQRS patient identification number
Org_id	EQRS facility identification number
Org_name	EQRS facility name
MHD	Indicator for missing Hemodialysis data
SHD	Indicator for saved Hemodialysis data
MVA	Indicator for missing Vascular Access data
SVA	Indicator for saved Vascular Access data
MPD	Indicator for missing Peritoneal data
SPD	Indicator for saved Peritoneal data
Modality	Indicator for missing treatment record or treatment type set to Other
Clinical_time_period_start	First day of month for clinical period
Clinical_time_period_active	Indicator for open/closed status of clinical period
network	Corresponding Network Number for Listing
ccn_num	CMS Certification Number (CCN)
